# SURGICAL CONSENT FORM

Date: \_\_\_\_\_ Pet: \_\_\_\_\_ Surgery: \_\_\_\_\_

I hereby authorize the veterinarians of the Apple Valley Animal Hospital to perform the above procedure(s) and any additional diagnostic and/or treatment procedures as deemed advisable or necessary for my pet. I understand that any additional procedures may increase the final cost. I understand that the hospital requires that all pets have a recent physical examination, be free of all parasites, and be current on vaccinations. I realize that there is always risk when anesthetics and other medications are used and when surgery is performed. I understand that results cannot be guaranteed. The Apple Valley Animal Hospital has medical staffing:

Monday through Thursday 8am-6pm, Friday 8am-5pm and Saturdays 8am-12pm.

If the doctor feels it is necessary, you will be asked to take your pet to the Veterinary Emergency Center for overnight care.

**My pet has had nothing to eat in the last 8 hours.** Owner's Initials: \_\_\_\_\_

**Where can we reach you today?** \_\_\_\_\_

**Estimate** of today's services: \_\_\_\_\_ or [ ] See estimate in file.

**Payment is due when pet is picked up from surgery.** Initial \_\_\_\_\_

=====

**If the doctor finds something unexpected, I would like the following steps taken:**

- \_\_\_ Do not perform any extra services to my pet.
- \_\_\_ You do not need to call me, do what is best for my pet within \$ \_\_\_\_\_
- \_\_\_ Call me before performing any other services. # \_\_\_\_\_

=====

**Microchipping** is recommended in all pets. The procedure is more comfortable while you pet is asleep.

The fee of \$65.00 includes insertion of the microchip and the first year's registration fee with HomeAgain

YES, please protect my pet by microchipping today.

NO thank you.

=====

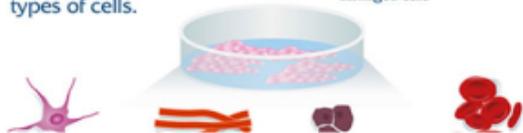

## What are stem cells?

**Unspecialized**  
unique cells of the body that have the ability to develop into several different types of cells.

**Proliferation**  
Stem cells can replicate many times, for long periods of time

**Regeneration**  
Stem cells can also regenerate to aid in the replacement of damaged cells

During your pet's surgery, we can remove some of their fat and send it to Ardent Animal Health where they will process the fat to remove your pet's stem cells. They will then keep those cells 'frozen' for the lifetime of your pet. In the future, if an unexpected injury occurs, or when normal changes happen with age (such as arthristis) your pet will have access to the most advanced (and natural) care available.

Fat retrieval charge and overnight shipping \$243.00

Prossesing and a lifetime of banking (Paid to Ardent) \$695.00

**Visit their website for more info at [ardentanimalhealth.com](http://ardentanimalhealth.com)**

Yes, please retrieve some of my pet's extra fat for processing.

No thank you.

Just like us humans, I am aware that **pre-surgery blood work** is recommended for the safety of my pet.

Yes, please do the recommended blood work for my pet today.

Against medical advice, I am declining bloodwork for my pet today. Sign: \_\_\_\_\_
